

Identifying Neighborhood Assets

Some questions to consider:

1. Which of these are assets in your neighborhood?
2. Which do you need to be successful in your neighborhood development work?
3. Where do you have established relationships?
4. Where do you need to establish them?

If you have other assets that are not listed, just add them to the end. If you have several of a certain asset (for example, churches) just add them to the sheet.

Asset	We have this	We need this	We Have a Relationship	We Need a Relationship
Alderman				
Auto mechanic				
Artist				
Art store				
Bakery				
Bank				
Barber shop				
Beat/Bike patrol				
Beauty shop
