Data source used in this analysis:

American Community Survey 5 year estimates for 2010 and 2014 were utilized in this report. Note that data are based on estimates from the American Fact Finder survey. Margins of error are not readily available but can be calculated as needed for this custom geography. Census 2000 Summary files were referenced for 2000 data.

American Fact Finder tables referenced in this report: B01001, B03002, B08201, B11001, B15001, B17001, B25041, B25063, S2301, S2401 S2501, S2504, S2506.

Census Summary files referenced in this report: DP-1, H062, PCT009, P037, P9, P30, QT-B3

Where there is insufficient data it is reported as NA.

Voter Data comes from the State of Wisconsin Government Accountability Board (GAB190) Election Voting and Registration Statistics Report for November 2008 Presidential Election, November 2010 General Election, November 2012 Presidential Election and the 2014 General Election.

Schools data comes from State of Wisconsin, Department of Public Instruction, Report Card for School Year 2013-14.

Appendix A provides data from the City of Milwaukee's Neighborhood Strategic Planning (NSP) Area 9 (Amani) report. This report provides updated information on property, land use, real estate, and public safety (including accidents and crime). It also includes the map that the City uses to define the Amani neighborhood for distributing funds from the Community Development Block Grant (CDBG) program. The data dictionary is included.

Geography used in this analysis:

Census tracts: 64, 65, 87 and 88 were used to define the geographic area for the Amani neighborhood in this report.

Wards: 109, 110, 111, 147 and 151 were used to define the geographic area for the Amani neighborhood in this report.

Introduction and Background

This report was prepared by DATA YOU CAN USE, INC, with the support of the Building Neighborhood Capacity Program (BNCP).

The framework is based on input and advice from community organizers working in the neighborhoods supported by Milwaukee's Community Development Block Grant (CDBG) program. In partnership with the Nonprofit Center of Milwaukee, nine Neighborhood Strategic Planning (NSP) areas participated in the design and development of this template. Partners met to describe the data they wanted –data that would be useful to them in their planning, organizing, and fund development work. They also helped guide the format. Two early prototypes were developed, discussed and adapted to provide this report. Related training (on the use of census data from the American Fact Finder Survey and open source mapping) was conducted and offered to the neighborhood partners. A final draft was reviewed and neighborhood organizers shared the ideas, stories and strategies that they derived from the data.

This is “data you can use” they concluded. It can be used with their staff, their partners, their funders, their elected officials and the residents of their neighborhoods. It can be used to supplement and support the stories and anecdotes of residents, to build a case for needed resources, and to identify more questions.

Each completed BNCP neighborhood report will be posted on our [website](#). Plans are underway to expand this effort to additional neighborhoods and to explore how the data can be made interactive. There is also an identified “wish list” for additional data that would help the organizers tell their story. The content and format are better because of the input of the neighborhood organizations and organizers who contributed. Thank you.

We welcome your feedback.
